Sea Star EcoCruising Society services for PIID

On May 26, 2024, at 12:44, Pauline wrote:

Dear PIID Trustees,

In support of our many members residing on Piers Island, we would like to assure Piers Island Improvement District that our services will be available to the Improvement District without a membership requirement. Should PIVFD, the Water Department or Buildings and Lands need the services for Improvement District business, it will be available without the membership prerequisite. Standard rates would apply to services requested.

We will be extending this same offer to the Southern Gulf Islands Emergency Program. We have assured them that in the event of an evacuation, a membership would not be required to board the vessels.

We are aware of the role we play in the emergency plans of Piers Island and wish to assist when possible. Our membership is the backbone of the service, but we understand that it might be difficult for a public entity to support us by membership.

Wishing you calm seas and light winds,

Pauline Olesen

Director

Sea Star EcoCruising Society

Reply from Julien Bahain on behalf of the PIID Trustees:

Hi Pauline and directors,
Thanks for your thoughtful proposal.

The Trustees agree with this approach and will proceed on that basis.
On behalf of the community thanks for being accommodating and support the PIID.
Have a great evening

-

Julien Bahain
PIID Chair
